

VoidForm Blockouts

Blockouts help form irregular shapes and spaces in concrete structures.

PRODUCT COMPOSITION

VoidForm Blockouts contain various corrugated papers of different strengths and flutes, bonded with white, water-based adhesive. The cover is wax-coated corrugated paper. Each piece can be manufactured with a non-wax back for gluing to the existing surface.

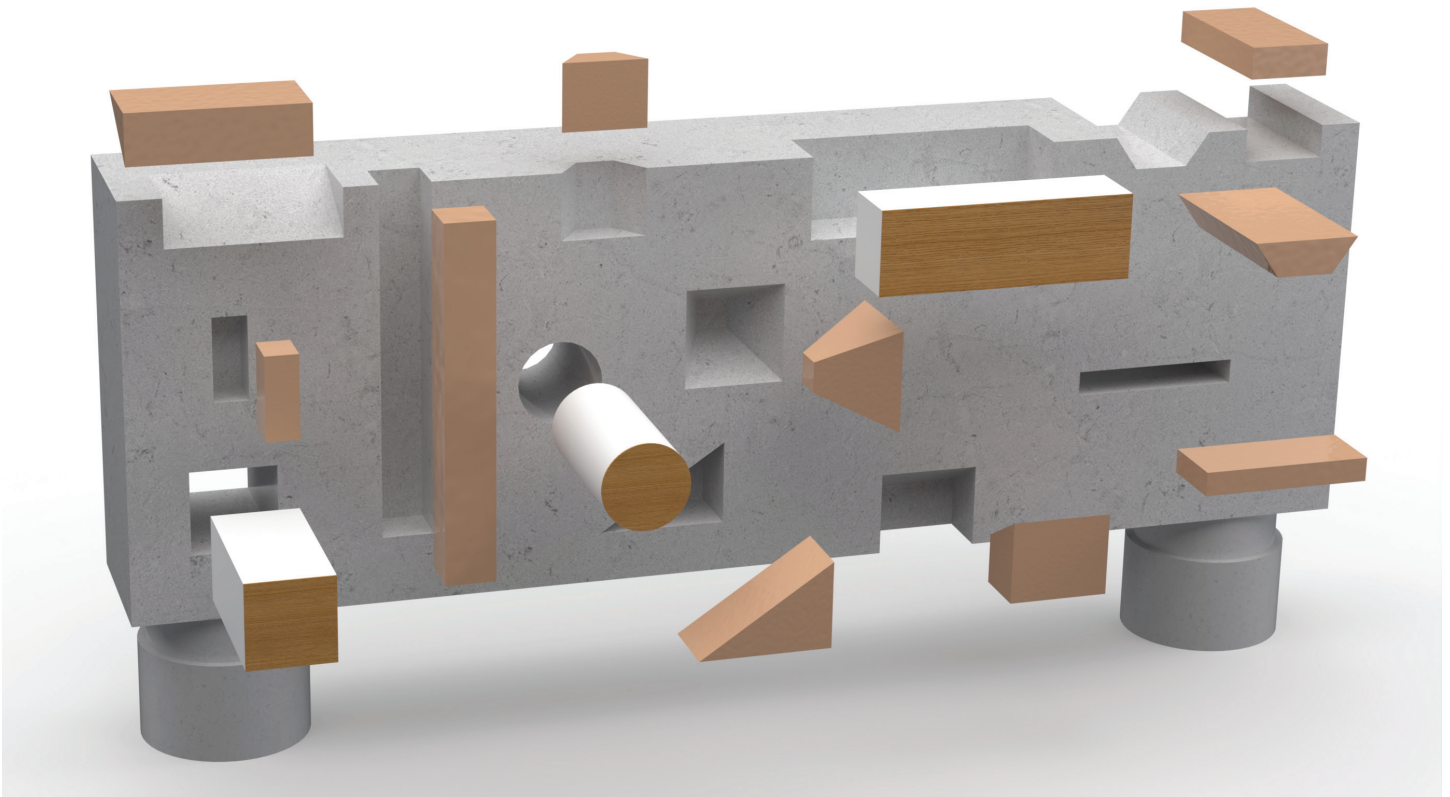

MATERIAL

Cover: C-Flute (44 ECT) Corrugated Wax-Coated Paper (Light Curtain Coat)

Interior: C-Flute (44 ECT) Corrugated or other paper types
